Profile

A self-motivated web development professional with in depth knowledge and proficiency in Vuejs/Vuex, Node, MongoDB along with many other technologies. My varied work experience has provided me with the liberty to design and develop cutting edge websites that deliver on impact, functionality and accessibility. In my most recent position as Creative Director, I further honed my skills in project management and collaboration with peers and clients. My record of success has encompassed among many others; client awards, industry standards, best practices as well as the goals of each client.

Skills

Markup: HTML 5, WCAG / Section 508, clean semantic document design, seo
Javascript: Vue/Vuex, AngularJS, Node, Gulp , Webpack, API Integration, ES6, Babel
Styling: Custom Libraries, Bootstrap 3/4, Material Design, SCSS, CSS
UI/UX: Custom Control Design, unique user centered approach
Other: MongoDB, PWA Manifest, ServiceWorkers, GCP Cloud Functions, Git, OAuth
